Jude Clark

Social Worker:

Jackie Hooley

Secretary:

Angela Beatson

Dietician:

Vicki Watson

Clinical

Psychologist:

Dr Helen Love

PRIVATE & CONFIDENTIAL

Parent/Carer

Dear Parent/Carer

We appreciate that you may be worried about the covid 19 infection. There is much misinformation circulating locally and nationally. The most up to date reliable advice for the CF community can be found on the CF trust website <https://www.cysticfibrosis.org.uk/>

General info which is updated regularly can also be found <https://www.nuh.nhs.uk/>

And <https://www.gov.uk/government/topical-events/coronavirus-covid-19-uk-government-response>

We will be following advice from the Department of Health and CF trust.

We are reassured that children have not been severely affected by covid 19.

As always it is important that you continue to do your regular treatment to keep well and have had the flu vaccine.

Much of the advice given so far is already our standard practice. We may move to more telephone consultation and community care if the demands on the Children's hospital rise over this period.

Patients admitted with CF will continue to be admitted to a cubicle with an en-suite so will be isolated from other patients.

Members of the CF team will remain available, as always, to support care as needed.

Best wishes

The CF Team

Nottingham
Children's
Hospital
